

Under Bench Sparkling Water System

Add another dimension to your drinking water. Offering Chilled , Ambient, or Sparkling Water on demand as and when you need it - to tickle your fancy. Freshly filtered.

FEATURES

- We pair a state of the art Italian water systems with commercial grade filters to deliver the best tasting chilled, sparkling, and still water available.
- Under-counter system, completely renewed, very compact, for dispensing cold, sparkling and room temperature water.
- Like your bubbles not so bubbly? No problem, the 'fizziness' can be adjusted according to your own taste.
- New refrigeration circuit with 2 single tanks, covered by an exclusive patent to avoid the limits of the traditional systems, which cannot use the cooling capacity at its best, to dispense independently volume of cold and sparkling water.
- New carbonator to double the capacity of sparkling water
- Silver tank system for improved antibacterial characteristics
- Sealed refrigeration system to eliminate the inconveniences related to the refilling of the open ice bank systems
- System is pictured with a Titanium tap

EVERPURE® CARTRIDGE FEATURES

Pair it with your choice of Pentair EVERPURE® filter cartridge.

- Carbon block with scale protection, reduces extra fine dirt and particles
- Carbon block filter cartridge finely polishes water, reduces chlorine taste and odour and other offensive contaminants that can adversely affect the taste of water and beverages.
- Reduces limescale build-up that can cause excessive machine downtime and increased maintenance costs
- Plus, scale reduction lowers energy costs
- *With built-in scale protection to prevent limescale from accumulating and damaging equipment where required.
