

1.1 Promax Water Tanks

Slimline Tanks

Save
on space,
water, and
money

The space and water saving Promax Slimline Tanks are ideal for urban dwellers who want to harvest and use rainwater for household requirements. Designed to blend discreetly with your surroundings, the Slimline Tank helps you save money on everyday necessities like watering the garden.

- 3000 litre and 5000 litre capacities
- Provides maximum storage for minimum space
- Avoid Council water restrictions and charges
- Save money on everyday household and garden water costs
- Save space with very compact and unobtrusive design
- 14 different colours to suit your surroundings
- Sits discreetly on the unused side of your house
- Ideal for urban rainwater collection
- Easy to install, supplied with 25mm threaded outlet

TESTIMONIAL

“I would definitely spec Promax tanks due to the service you provided and also the CAD drawing which was extremely helpful. Getting technical information can be difficult, but with you guys it was easy as. I also appreciated the advice you gave over the phone.”

Steve Cormack, Hamilton
