

Coffee and Tea are 98% Water

PRODUCT SELECTION GUIDE • COFFEE / TEA

PENTAIR EVERPURE® Coffee filter systems take care of your most important ingredient. They can be plumbed directly to coffee brewers and other water-using appliances.

With built-in scale inhibitors, Everpure Coffee filters prevent limescale from accumulating and damaging equipment. Brewers work better, last longer, and flawlessly deliver great-tasting coffee.

2CB5-S and 4CB5-S

- Carbon block with scale protection 5.0 micron
- Reduces chlorine taste and odour and other offensive contaminants that can adversely affect the taste of water and beverages
- Scale reduction lowers energy costs

OCS²

- Pre-coat submicron technology reduces dirt and particles as small as 0.5 micron in size
- New and improved Micro-Pure II media inhibits the growth of bacteria. Reduces chlorine taste and odour and other offensive contaminants
- Saves energy by reducing scale build-up. Proportioned scale inhibitor feed prevents limescale from forming in brewing equipment
- Engineered to always feed the correct amount of scale inhibitor into each volume of water

4H (HOT WATER APPLICATIONS)

- Pre-coat submicron technology reduces dirt and particles as small as 0.5 micron in size
- For high volume sites
- For hot water applications, with added phosphate for scale protection
- Provides clear, fresh, premium quality ingredient water for great tasting hot beverages
- Reduces chlorine taste and odour and health contaminants such as Cryptosporidium and Giardia cysts
- Saves energy by reducing scale build-up. Proportioned scale inhibitor feed dramatically prevents limescale from forming in equipment.
- Engineered to always feed the correct amount of scale inhibitor into each volume of water
