

# Under Bench Inline Filter System

This system is easily installed Inline to an existing kitchen mixer tap and will filter all the cold water, delivering clean, pure, great tasting water.

## FEATURES

- Eliminates the need for an additional tap on your bench
- System easily installed Inline (out of sight)
- All cold water is filtered
- Water is forced through a high quality 0.5 micron filter
- Removes/reduces Giardia and Cryptosporidium, Chlorine, Chemicals, Pesticides, Insecticides, Asbestos, Rust, Sediment, Taste, Odour etc
- Cartridge Replacement/Service (Recommended every 6-12 months)
- Costs less than a cent per litre
- Easily updated twin unit to allow for greater sediment removal or specialty cartridge
- Plus many more applications:
  - coffee machines
  - steam ovens
  - boiling water units
  - ice machines
  - post mixed drink dispenses
  - Speciality cartridge options are available for different applications.

## BENEFITS OF PURE WATER

- Clean tasting and refreshing every time.
- Improves physical and mental performance.
- Needed for proper kidney function and healthy metabolism.
- Money saved from buying soft drinks, juice, teas and coffee.

## REMOVES/REDUCES

(applies to UBIWF with standard filter)

- |  |                    |  |                           |
|--|--------------------|--|---------------------------|
|  | Bad Taste & Odour  |  | Chlorine                  |
|  | Sediment           |  | Pesticides                |
|  | Asbestos           |  | Giardia / Cryptosporidium |
|  | Specialty Filters* |  | Heavy Metals              |
